Re: Clinton Gorst Employment

To Whom it may concern,

Clinton Gorst was employed as a senior graphic artist / design studio manager by our company from August 2008 to December 2009. His duties encompassed all aspects of graphic design and graphic artwork – designing magazine page layout, designing advertisements from scratch, designing our news section, designing our front cover, designing logos, doing manipulation of photos, e.g. changing colours/lightening/darkening/adding items/removing items/general cleaning up of photos etc, working through the proof approval process, and he demonstrated an excellent phone manner when contacting our customers and when chasing artwork, photos, and editorial from our writers and photographers. He ran our graphic artwork department, and was responsible for all activities within it.

In all of these tasks Clinton performed above and beyond our expectations. Not only is he extremely competent, he is a joy to work with – always punctual, never missing work, fun to be around, and a genuine pleasure to work with. He performed all tasks given to him in a quick, insightful, professional, and extremely proficient manner, always displaying a great deal of creativity, artistic flair, and an extremely accurate eye for detail.

He truly is a gifted designer and we were extremely disappointed he was not able to continue with our company after we moved our offices to the Central Coast, however we would welcome him back at any time.

I have no hesitation in giving Clinton Gorst the highest recommendation to any employer. He would be a prime asset to any company.

Sincerely,

Keith M. Hanson
